Career Objective

Highly passionate and technically proficient Computer Science student eager to apply my coding skills and gain hands-on experience in developing robust and scalable software solutions to drive innovation and create a positive impact. Eager to collaborate with a dynamic team and contribute to impactful projects.

Education

Prasad V Potluri Siddhartha Institute of Technology

B.Tech in Computer Science and Engineering, CGPA-9.3/10

Andhra Pradesh, India

September 2022 - Present

Narayana Junior College

Intermediate in MPC, Marks - 981/1000

Andhra Pradesh, India

May 2022

Nirmala High School

Tenth, Marks - 568/600

Andhra Pradesh, India

March 2020

Internship

Web Development Intern: Successfully completed the Teachnook Web Development internship. Developed the RHYNO EV Web Application (Internship Details).

About the Project: Developed RHYNO EV, an electric bike brand, featuring a modern UI and key pages such as Home, Product Details, Compare All, Pre-book, About Us, Contact Us, and Rentals. The platform allows users to explore and compare electric bike models and make their choices.

Projects

EduLib

React.js, MongoDB, Node.js, Express.js

A Library Management System built using the MERN stack.

Users can search books, track availability, and admins can manage inventory in real time.

Deployed with a clean UI and responsive design on Vercel.

Link: <https://edulib.vercel.app>

Fetal Health Classification

Python, Scikit-learn

A machine learning project that classifies fetal health as Normal, Suspect, or Pathological.

Used Scikit-learn for training models on the dataset.

Helps in early prediction of fetal risk for healthcare applications.

Link: <https://github.com/Phanisirisha-46/Fetal-Health-Classification>

SmartBridge

MERN Stack, JWT Auth

Built a full-stack mentorship platform enabling users to connect as mentors or learners in real-time.

Developed features like mentor sign-up, real-time availability, profile customization, and interactive dashboards.

Implemented responsive UI using React-Bootstrap, and MongoDB-based data storage.

Link: <https://github.com/Phanisirisha-46/SmartSSS>

Emergency Alert Triggering System

C++, Data Structures

Developed a simulation for emergency response prioritization using hash tables and priority queues.

Handles multiple emergency types (fire, accidents, health alerts) with severity and distance-based ranking.

Implements core operations like insertion, deletion, search, and precaution delivery.

Link: <https://github.com/Phanisirisha-46/Emergency-Alert-Triggering-System>

Voice-Navigation App

Android (Java)

An Android application for navigation using voice commands.

Utilizes SpeechRecognizer API and Google Maps API for route generation.

Aimed at improving accessibility and enhancing routing experiences.

Link: <https://github.com/Phanisirisha-46/Voice-Navigation-app>

Coding Profiles

LeetCode: veerankiphanisirisha – Solved 400+ problems.

HackerRank: veerankiphanisi1 – Achieved 5-star in Problem Solving.

CodeChef: phanisirisha – Earned Silver Badge by solving 450+ problems.

Achievements

WE Scholar: Women Engineer Scholar by NSE TalentSprint and sponsored by Google - enhancing DSA skills.

Aspire 2024: Selected for Aspire Leaders Program by Harvard faculty - boosting leadership skills.

Reliance Scholar: Awarded Reliance Foundation Scholarship (top 5,000 nationwide).

Certifications

Smart Interviews: Awarded Silver Certificate with a global rank of 3512.

ACM Winter School: Attended School on Data Structures and Algorithms - Strings.

Google Cloud Foundations: Completed certification in Google Cloud Foundations.

Technical Skills

Programming Languages: C++ | C | Python | Java

Web Development: HTML | CSS | Bootstrap | JavaScript | React.js | Node.js | Express | MongoDB

Machine Learning: Scikit-learn | TensorFlow | PyTorch

Databases: MongoDB | MySQL

Development Tools: Google Colab | VS Code | GitHub | Figma

Extracurricular Activities

VIT-AP DIMO HACK: Participated in a 24-hour hackathon in collaboration with Devfolio.

NSS Volunteer: Took part in organizing and participating in community events such as blood donation camps and awareness programs.

MAD (Make A Difference) Volunteer: Actively involved in academic volunteering, mentoring children through education-focused initiatives.
